Re: DoctorsManagement

To Whom It May Concern:

This letter of recommendation is being written based on the experience of Adventist Health System utilizing DoctorsManagement for coding support over the last two years.

DoctorsManagement, and more specifically Sean Weiss, has provided coding support and guidance to Adventist Health System medical practices. This support has included policy development, chart auditing and coder competency training and monitoring.

DoctorsManagement has been flexible in the delivery of these services, worked diligently to meet our needs and has provided excellent services. The quality of their work is excellent and can be recommended without question.

Please do not hesitate to contact me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bryan Stiltz", with a long horizontal flourish extending to the right.

Bryan Stiltz
Senior Vice President
Adventist Health System / Physician Enterprise
