Compliance Risk Analyzer®

A complete set of tools that support your compliance team's risk based auditing efforts

CRA®

- Evaluates 100% of the billing that your organization does.

- We use benchmarking and cohort data to compare your data against REAL practice data, NOT just Medicare data.

- Feedback loop trains the analytics engine to YOUR practice. Customize by adding in or excluding codes.

+

AuditTrakker®

- **CodeTrakker®** captures your internal reviews of outpatient procedure modifier codes that CRA® identifies as at risk for audit.

- **The DRGTrakker®** captures your internal reviews of the inpatient DRG codes at risk.

- **APCTrakker®** — Coming Soon!

Client Support - INCLUDED

- Training
- Webinars
- Customized Reports
- Due diligence risk analysis

> "The analytics are powerful, and the proprietary risk scores are invaluable. I could not imagine overseeing this work without the benefit of the Compliance Risk Analyzer.
>
> — System Director, Ethics & Compliance
